TO: Arizona Corporation Commission

On behalf of Sierra Vista Unified School District No. 68, I am writing to ask that you deny the proposed increases to the electric rate structure. The combined effect of the proposed changes would increase the school district's electric power costs by over 500%. This comes at a time when the Legislature is phasing out the excess utility funding and forcing school districts to pay for all utility costs from the M & O budget while not increasing the funding formula to allow for the extra utility costs. The combined impact of these two measures will significantly reduce the amount of funds spent in the classrooms in our district as well as across Arizona.

I strongly urge the Corporation Commission to reconsider this matter and deny the proposed increases in the electric rate structure.

Sincerely,

William L. Roach, Jr., Ph.D.  
Assistant Superintendent
